EXPERIENCE

CDP360 Technologies, Chennai — *Front-end Developer*

September 2023 - PRESENT
Led the front-end development of multiple projects, implementing modern UI/UX practices. Extensive experience in utilizing ReactJS including Virtual DOM, custom components, React-Router, and Redux for state management

PROJECTS

Learning Management System(LMS) — *Reactjs*

Used ReactJS to create a user-friendly and interactive interface. Developed reusable components to maintain a consistent design and functionality across the platform. Implemented responsive design to ensure accessibility across various devices and screen sizes.Integrated OTP verification with a third-party integrated on ReactJS . Optimized the codebase resulting in 30% reduction in a page load times used for **ReactJs**

Online Exam PlatForm for NEET and JEE preparation — *Reactjs, Redux*

 Provided students with a comprehensive online platform for NEET and JEE exam preparation. Offered a user-friendly interface with interactive features and tools to facilitate effective learning and exam practice used for **ReactJS** .
